Introduction: Expocor Private Limited is a newly established manufacturing and fabrication company based in Rajkot, Gujarat. Founded by a mechanical engineer with over 12 years of experience in L&T Water & Effluent Treatment IC, we bring extensive expertise in steel fabrication and equipment erection. Over the years, we have successfully executed complex projects, handling fabrication and installation work with precision and efficiency.

Having been associated with L&T Water & Effluent Treatment IC for over a decade, we have completed numerous projects involving steel fabrication and equipment erection. Our skilled and unskilled workforce is well-equipped to complete assigned work within the stipulated time, ensuring high-quality results.

Our Vision: To become a global leader in cable tray manufacturing and steel fabrication, delivering high-quality products and services while establishing a strong international presence.

Our Expertise:

- Over 12 years of hands-on experience in large-scale infrastructure and industrial projects
- Proven track record of successful project execution with top-tier companies like L&T
- Strong leadership and a dedicated team of skilled fabricators and workers

Product & Service Range:

- Cable Trays (Perforated, Ladder, and Custom Designs)
- Steel Fabrication Solutions (Custom Structures, Support Systems, and Industrial Components)
- Equipment Erection and On-Site Installation

Manufacturing & Execution Capabilities: Our Rajkot facility is equipped with modern machinery to produce high-quality, precision-engineered products. Alongside manufacturing, we have a well-structured team for on-site fabrication and erection work, ensuring seamless project execution from production to installation.

Commitment to Quality & Timely Delivery: We prioritize delivering top-notch quality within agreed timelines. Our products and services undergo stringent quality checks, and our well-coordinated team ensures that project schedules are met without compromise.

Why Choose Expocor:

- Extensive experience with leading infrastructure companies
- End-to-end solutions from manufacturing to installation
- Skilled and unskilled workforce ready for diverse project needs
- Competitive pricing with an unwavering focus on quality and safety
- Strong industry network and reliable supply chain
